BALTICA Volume 22 Number 2 December 2009 : 100

Errata

In previous publication (*Baltica 2009, Vol. 22, No. 1, 51-62*) in a paper entitled „Ancylus Lake and Litorina Sea transition on the Island of Saaremaa, Estonia: a pilot study“ by L. Saarse, J. Vassiljev and A. Rosentau on p. 56 erroneously was presented Figure 2, where under headline Ohtja (B) was given loss-on-ignition results from Vedruka (C). Subtitles given on figures do not match with the text. Please find here a correct Figure 2 and the figure caption.

L. Saarse

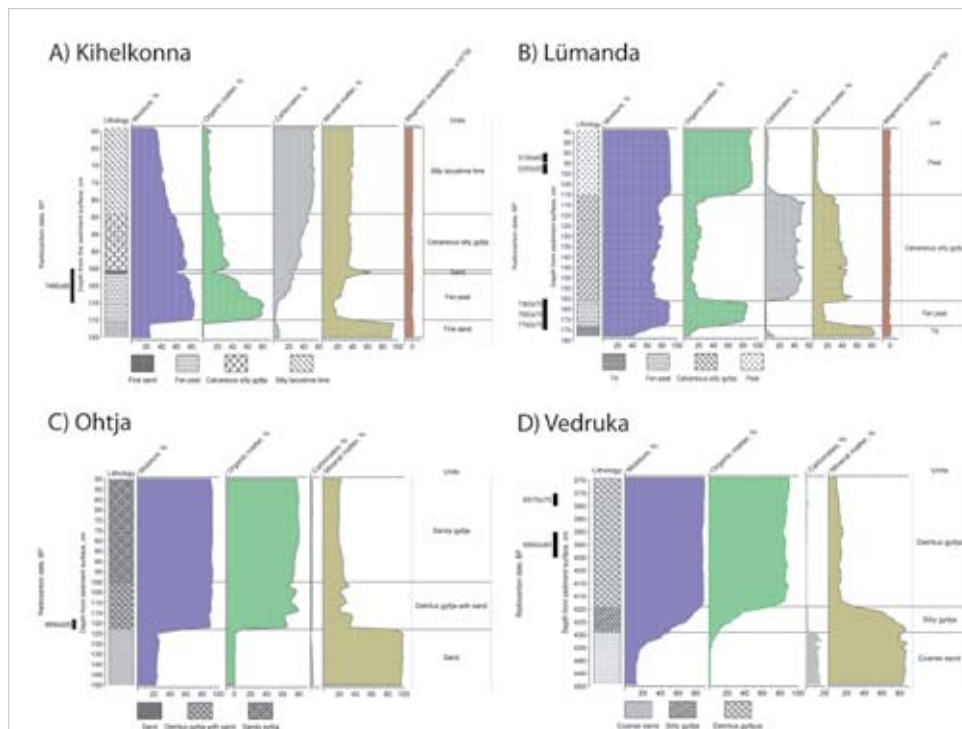

Fig. 2. Sediment composition of Kihelkonna(A), Lümända (B), Ohtja (C) and Vedruka (D) sites.
